

Leave our Wisconsin "No Call" as is. I alone pay for the phone at my home. I have every right to say how it should be used. A telephone is a necessity in most homes today and having one should in no way grant anyone else license to invade the owner's privacy. PERIOD. The FCC should stay away - the citizen's of Wisconsin have clearly expressed their desires.

Furthermore no agency of the federal government has any Constitutional Authority to override the voice of the people in the State of Wisconsin. PERIOD.
